Increase Personal Productivity and Customer Satisfaction

The ability to access files from your BlackBerry handheld allows you to stay on top of business decisions when you're out of the office and provide your customers with the information they need quickly.

Attach files from any drive of your PC. I'm

InTouch allows you to have access to the same network drives as you have with Windows® Explorer on your PC. Your PC's existing Windows privileges are inherited to preserve established security policy.

Secure

In addition to requiring password protection for access to your remote PC, I'm InTouch uses industry standard 128 bit SSL encryption to protect all remote sessions. Works with any firewall, gateway or router without comprising the security of your computer or network.

View files and email attachments. Important

information that you may need is always at your fingertips. I'm InTouch provides viewing of all popular file types including .doc, .ppt, .xls, .pdf, .txt, .html, .jpeg, and more.

Affordable

A low monthly or annual I'm InTouch service fee provides you with a cost effective mobile computing solution. Unlimited usage, free technical support and upgrades included.

System Requirements

Desktop PC

- Windows 98 Second Edition, 2000 Professional, ME, XP or 2003 Server
- "Always On" Internet connection (e.g. cable modem, DSL, ISDN, T1, or LAN)
