## ***01 Communique Named A Top Technology Innovator By VARBusiness Magazine***

**TORONTO, ON – October 25, 2006** – 01 Communique Laboratory Inc. (TSX: ONE - [www.01com.com](http://www.01com.com)), a leading remote access solutions provider, today announced that it has been recognized by *VARBusiness* magazine for outstanding achievement in technology innovation. Its I'm InTouch Corporate Server Edition (CSE), a premise based remote access solution for businesses and VARs, was named winner in the SMB Software category of the *VARBusiness* Tech Innovators award competition.

*VARBusiness* magazine, which covers the business of technology integration, honored 01 Communique at an awards ceremony held on Oct. 23, 2006, in Huntington Beach, Calif.

The I'm InTouch CSE was among nearly 700 entries submitted in 14 technology categories.

“Innovations like what we’ve seen from 01 Communique demonstrate the vibrancy and vitality of the industry,” says *VARBusiness* Editor Lawrence M. Walsh. “They represent breakthroughs that will benefit our solution-provider readers and, in turn, the users of technology.”

“We are delighted to have our I'm InTouch CSE’s “remote PC wakeup technology” acclaimed by CMP’s *VARBusiness* as an innovation that sets us apart from similar products in the market,” says Andrew Cheung, President and CEO of 01 Communique. “Our patent pending wake up technology, which allows users to remotely power on previously shut down PCs to facilitate remote access, was developed to combat security and environmental fears associated with the “always on PC”. Receiving the Tech Innovator of the Year award for this technology reinforces our continued commitment to innovation. We will continue our focus on bringing unique value to SMBs and the channel, by delivering the ultimate productivity solution.”

In addition, 01 Communique will be recognized in the *VARBusiness* Dec. 4 Tech Innovators issue, which will include profiles, features and in-depth explanations of the winning technologies and products.
