

01 Communique Commences Trading on OTCQB

TORONTO, ON – October 19, 2020. **01 Communique Laboratory Inc.** (ONE:TSX-V: OTCQB: OONEF) (the "Company") is pleased to announce that the Company has qualified to trade on the OTCQB® Venture Market and will begin trading today under the symbol "OONEF". U.S. investors can find current financial disclosure and Real-Time Level 2 quotes for the company at www.otcmarkets.com.

Andrew Cheung President and CEO of 01 Communique commented, "Upgrading to the OTCQB market is an important step for us in creating trading transparency for our U.S. investors. Trading on the OTCQB market compliments our Canadian listing on the TSX Venture Exchange and our relationship with Alumina Partners in New York to provide access to funding needed to participate in the growing post-quantum cybersecurity market. As we move forward to build our IronCAP cybersecurity platform for international customers, trading on the OTCQB should increase the Company's visibility to U.S. investors and provide improved liquidity for investors in all jurisdictions."

The OTCQB Venture Market, operated by OTC Markets Group Inc., provides transparent trading, improved market visibility and enhanced trading liquidity for U.S. investors. Streamlined market standards enables companies listed on a qualified international exchange to utilize their home market reporting to make their information available in the U.S. To qualify for OTCQB, companies must meet certain financial standards, follow best practice corporate governance, and demonstrate compliance with applicable securities laws.

The Company is also pleased to announce that it has secured eligibility by The Depository Trust Company ("DTC") for its common shares which trade on the OTCQB in the United States. DTC is a subsidiary of the Depository Trust & Clearing Corporation, a U.S. company that manages the electronic clearing and settlement of publicly traded companies. DTC eligibility permits shares of the Company to be distributed, settled and serviced through DTC's automated processes, leveraging the efficiencies created through the electronic clearing and settlement of securities. DTC services provide cost benefits for investors and brokers trading Canadian securities in the United States.

B. Riley FBR acted as the Company's OTCQB sponsor. B. Riley Securities, Inc. is a full-service investment bank and subsidiary of B. Riley Financial, Inc. based in Los Angeles with offices across the United States, providing corporate finance, research, sales and trading services.

About OTC Markets Group Inc.:

OTC Markets Group Inc. (OTCQX: OTCM) operates the OTCQX® Best Market, the OTCQB® Venture Market and the Pink® Open Market for 10,000 U.S. and global securities. Neither TSX Venture Exchange ("TSX-V") nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

About IronCAP and IronCAP X:

IronCAP is at the forefront of the cyber security market and is designed to protect our customers from cyber-attacks. IronCAP's patent-pending cryptographic system is designed to protect users and enterprises against the ever-evolving illegitimate and malicious means of gaining access to their data today as well as in

the future with the introduction of powerful quantum computers. Based on improved Goppa code-based encryption it is designed to be faster and more secure than current standards. It operates on conventional computer systems, so users are protected today while being secure enough to safeguard against future attacks from the world of quantum computers. An IronCAP API is available which allows vendors of a wide variety of vertical applications to easily transform their products to ensure their customers are safe from cyber-attacks today and from quantum computers in the future.

IronCAP X, a new cybersecurity product for email/file encryption, incorporating our patent-pending technology was made available for commercial use on April 23, 2020. The new product has two major differentiations from what is in the market today. Firstly, many offerings in today's market store users secured emails on email-servers for recipients to read, making email-servers a central target of cyber-attack. Our new product, on the other hand, delivers each encrypted message end-to-end to the recipients such that only the intended recipients can decrypt and read the message. Consumer's individual messages are protected, eliminating the hackers' incentive to attack email servers of email providers. Secondly, powered by our patent-pending IronCAP technology, we believe our new product will be the world's first quantum-safe end-to-end email encryption system; secured against cyberattacks from today's systems and from quantum computers in the future. Consumers and businesses using our new products will have tomorrow's cybersecurity today.

About 01 Communique

Established in 1992, 01 Communique (TSX-V: ONE) has always been at the forefront of technology. The Company's cyber security business unit focuses on post-quantum cybersecurity with the development of its IronCAP technology. IronCAP's patent-pending cryptographic system is an advanced Goppa code-based post-quantum cryptographic technology that can be implemented on classical computer systems as we know them today while at the same time can also safeguard against attacks in the future post-quantum world of computing. The Company's remote access business unit provides its customers with a suite of secure remote access services and products under its I'm InTouch and I'm OnCall product offerings. The remote access offerings are protected in the U.S.A. by its patents #6,928,479 / #6,938,076 / #8,234,701; in Canada by its patents #2,309,398 / #2,524,039 and in Japan by its patent #4,875,094. For more information, visit the Company's web site at www.ironcap.ca and www.01com.com.

Cautionary Note Regarding Forward-looking Statements.

Certain statements in this news release may constitute "forward-looking" statements which involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. When used in this news release, such statements use such words as "may", "will", "expect", "believe", "plan", "intend", "are confident" and other similar terminology. Such statements include statements regarding the business prospects of IronCAP X, the future of quantum computers and their impact on the Company's product offering, the functionality of the Company's products and the intended product lines for the Company's technology. These statements reflect current expectations regarding future events and operating performance and speak only as of the date of this news release. Forward-looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not such results will be achieved. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements, including, but not limited to, the factors discussed under "Risk and Uncertainties" in the company's Management's Discussion and Analysis document filed on SEDAR. Although the forward-looking statements contained in this news release are based upon what management of the Company believes are reasonable assumptions, the company cannot assure investors that actual results will be consistent with these forward looking statements. These forward-looking statements are made as of the date of this news release, and the company assumes no obligation to update or revise them to reflect new events or circumstances.
