## **01 Communique Releases World's First Quantum-Safe Secure Remote Access**

---

**TORONTO, ON – February 7, 2023.** 01 Communique Laboratory Inc. (the "Company") (TSX-V: ONE; OTCQB: OONEF), a first-to-market, enterprise level cybersecurity provider just upgraded its I'm InTouch remote access service – I'm InTouch v11.

To maximize user protection, I'm InTouch v11 has 3 significant enhancements:

1. The communication session is encrypted using the Company's Post-Quantum Cryptography (PQC) engine, IronCAP™, making it safe from cyberattacks by bad actors including those using Quantum Computers.
2. Two-factor authentication (2FA) and MAC address restriction have been added ensuring only the intended user has access.
3. Adding security to ensure password safety.

Andrew Cheung, CEO of 01 Communique noted, "In the past, the communication session of remote access is prone to attacks by bad actors. I'm InTouch v11 is safe even in the post-quantum world. We have gone even further with additional security features, including a two-factor authentication process, MAC address restriction, and password security. We believe I'm InTouch v11 is the most secure remote access service on the market today."

This announcement represents a giant leap forward in cybersecurity surrounding remote access. The arrival of a Quantum-safe remote access system provides far greater protection for users. Combining NIST-approved PQC algorithms with our patent-protected quantum-safe technology, remote access is just the beginning. It is one of the many vertical solutions that can be upgraded to become quantum-safe using IronCAP™.

A free trial version of I'm InTouch v11 is available at: [www.imintouch.com](http://www.imintouch.com).

### **About 01 Communique**

01 Communique (TSX-V: ONE; OTCQB: OONEF) is one of the first-to-market, enterprise level cybersecurity providers for the quantum computing era. Its IronCAP™ technology, protected in the U.S.A. by its patent #11,271,715, is a cryptographic system incorporating advanced post-quantum cryptographic technology that can be implemented on classical computer systems as we know them today while at the same time can also safeguard against attacks in the post-quantum world of computing. The Company's remote access business unit provides its customers with a suite of secure remote access services and products under its I'm InTouch and I'm OnCall product offerings. The remote access offerings are protected in the U.S.A. by its patents #6,928,479 / #6,938,076 / #8,234,701; in Canada by its patents #2,309,398 / #2,524,039 and in Japan by its patent #4,875,094. For more information, visit the Company's web site at [www.ironcap.ca](http://www.ironcap.ca) and [www.01com.com](http://www.01com.com)

### **Cautionary Note Regarding Forward-looking Statements.**

Certain statements in this news release may constitute "forward-looking" statements which involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company, or industry results, to be materially different from any future results, performance or achievements expressed or implied by such forward-looking statements. When used in this news release, such statements use such words as "may", "will", "expect", "believe", "plan", "intend", "are

confident” and other similar terminology. Such statements include statements regarding the commercial success of IronCAP X™, the future of quantum computers and their impact on the Company's product offering, the functionality of the Company's products and the intended product lines for the Company's technology and the potential licensing of the Company's technology. These statements reflect current expectations regarding future events and operating performance and speak only as of the date of this news release. Forward-looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results, and will not necessarily be accurate indications of whether or not such results will be achieved. A number of factors could cause actual results to differ materially from the results discussed in the forward-looking statements, including, but not limited to, the factors discussed under “Risk and Uncertainties” in the Company’s Management’s Discussion and Analysis document filed on SEDAR. Although the forward-looking statements contained in this news release are based upon what management of the Company believes are reasonable assumptions, the Company cannot assure investors that actual results will be consistent with these forward-looking statements. These forward-looking statements are made as of the date of this news release, and the Company assumes no obligation to update or revise them to reflect new events or circumstances.

Neither TSX Venture Exchange (“TSX-V”) nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
