

01 Communique Announces New Appointment to its Board of Directors

TORONTO, ON – July 10, 2018. 01 Communique Laboratory Inc. (ONE:TSX-V) (the "Company") today announced the appointment of Jane Yang to its board of directors, effective July 5, 2018.

Ms. Yang received her Honours B. Math (minor in Economics) at the University of Waterloo. She has recently worked at Digital Asset, a global leader in enterprise blockchain technology, where she was instrumental in their growth from 43 employees to over 100, helping facilitate their marquee project with the Australian Securities Exchange (ASX), resulting in a successful beta product. Ms. Yang is an active member of the New York blockchain community and is currently helping Lumenary, a New York-based tech incubator, as they launch a blockchain marketplace for alternative investments.

"We are delighted that Jane has agreed to bring her experience and extensive knowledge in the area of blockchain technology to help us build our company and increase shareholder value," said Bill Train, Chair of the Board of Directors for 01 Communique. "Andrew Cheung, our President and CEO, is in the process of building out his executive team and Jane will be an invaluable asset in helping him as we move forward."

In addition to the appointment of Ms. Yang to the board of directors the Company has granted stock options to Ms. Yang and other members of its board of directors and executive management. In total there were 550,000 stock options granted effective July 5, 2018 with an exercise price of \$0.07 and an expiry date of July 5, 2022.

Neither TSX Venture Exchange ("TSX-V") nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.

About 01 Communique

Established in 1992, 01 Communique Laboratory Inc. (TSX-V:ONE) has always been at the forefront of technology. The Company's legacy business provides its customers with a suite of secure remote access services and products. Today, the Company is transitioning its business focusing on cybersecurity with the development and implementation of a Post-Quantum Blockchain, which can be implemented on classical computer systems as we know them today while at the same time secure enough to safeguard against potential Quantum Computer attacks. The Company's legacy products are protected in the U.S.A. by its patents #6,928,479 / #6,938,076 / #8,234,701; in Canada by its patents #2,309,398 / #2,524,039 and in Japan by its patent #4,875,094.
